Summary

DevOps and automation specialist with 2+ years of IT consulting experience delivering cloud infrastructure, CI/CD pipelines, and workflow automation for enterprise clients. Built Kubernetes-based microservices with automated CI/CD at scale; automated enterprise workflows with n8n saving 3+ hours daily; executed ISO 27001 compliance programs and KnowBe4 phishing campaigns for Fortune-level clients. Hands-on practitioner of AI-assisted DevOps tools for infrastructure-as-code and incident response.

Skills

DevOps & CI/CD: GitHub Actions ▪ Kubernetes ▪ Docker ▪ Azure
Infrastructure: Terraform ▪ Linux ▪ Nginx ▪ PostgreSQL ▪ Redis
Automation & AI: Python ▪ Go ▪ n8n ▪ OpenClaw ▪ Bash
Languages: Chinese ▪ English ▪ Hungarian

Professional Experience

Information Technology Consultant — InsightSec, Shanghai — Mar 2021 – Dec 2022
IT Consulting | Cloud Security | Workflow Automation

- Designed n8n workflow automation for SME clients (Decathlon, Xihua Foods, COSCO) — saved 3+ hours daily on repetitive operational tasks; automated 15+ enterprise workflows across retail, F&B, and logistics sectors
- Led ISO 27001 gap analysis for Xihua Foods (200+ documents); deployed KnowBe4 phishing simulation campaigns for YumChina (5,000+ users) as part of enterprise security awareness programs
- Managed cloud security training programs for Decathlon France; applied Agile/Scrum across all engagements, coordinating developers, QA, and business stakeholders in Jira

Software Engineer (Intern) — Stealth AI Startup — Mar 2024 – Oct 2024
DevOps Automation | CI/CD | Documentation

- Built automated testing and deployment workflows; improved release cycle from 2 days to 15 minutes via GitHub Actions CI/CD pipelines
- Containerized applications with Docker; documented deployment procedures for production Kubernetes environments
- Created automation scripts in Bash for cross-team collaboration and operational efficiency

Technical Projects

Smart Parking Space Detection – MSc Dissertation — TU Dublin (Sep – Dec 2024)
Kubernetes • Docker • GitHub Actions • Go • PostgreSQL • ResNet50

- Deployed via Kubernetes/Docker microservices with fully automated CI/CD — reduced release cycle from 2 days to 15 minutes; authored EDULEARN25 paper on computer vision deployment
- Built backend services in Go and Node.js; designed PostgreSQL schema for real-time parking data with automated testing pipelines

Cloud Security Training Programs – Enterprise Compliance — Decathlon France & YumChina (2021 – 2022)
KnowBe4 • Azure • ISO 27001 • Security Awareness

- Coordinated KnowBe4 phishing simulation campaigns for YumChina (5,000+ enterprise users); designed cloud security training curriculum for Decathlon France IT teams
- Conducted ISO 27001 gap analysis for Xihua Foods covering 200+ compliance documents; automated security awareness reporting workflows with n8n

Education

MSc Computer Science — Technological University Dublin — Sep 2023 – Dec 2024
Systems Architecture, Web App Architectures, Agile Methods, Deep Learning

MSc Management (International Business) — University of Sheffield — Jun 2019 – Mar 2021
Agile Project Management, Accounting & Financial Management

Certifications

ISO 27001 Foundation – BSI (2021) ▪ CMI Level 7 Strategic Management & Leadership (2021) ▪ Google Analytics Advanced Certification
