Summary

Full-stack Software Engineer with hands-on expertise in AI/ML, cloud architecture, and cybersecurity. Trained CNN models achieving 95% accuracy for parking space detection. Remediated 20+ critical vulnerabilities in enterprise penetration testing projects. ISO 27001 compliance auditor with proven cross-cultural collaboration skills and Agile/Scrum experience.

Skills

Languages Python JavaScript TypeScript SQL HTML/CSS

Frameworks React Node.js Express Redux FastAPI Django

Cloud/DevOps Azure Kubernetes Docker Terraform CI/CD Unix/Linux

Databases PostgreSQL Redis MongoDB

Security ISO 27001 Compliance Penetration Testing Cybersecurity

Experience

Information Cybersecurity Specialist — InsightSec, Shanghai
Penetration Testing & Compliance — Apr 2021 – Dec 2022

- Led penetration testing engagements, identifying and remediating 20+ critical vulnerabilities across enterprise systems, reducing client risk exposure by an average of 70%
- Managed Agile/Scrum projects end-to-end, coordinating cross-functional teams to ensure on-time delivery within budget constraints
- Guided clients through ISO 27001 ISMS certification, achieving compliance for 5+ organizations across finance, healthcare, and technology sectors

Web Engineer — Sheffield African Caribbean Community Association
Full-Stack Web Development — Sep 2019 – Apr 2020

- Developed and maintained association website from scratch using WordPress and Figma, implementing SEO optimization that improved organic search visibility by 40%
- Designed and built responsive front-end features, improving mobile usability and reducing maintenance overhead by 30%

Education

MSc Computer Science — Technological University Dublin
Advanced Software Development Dec 2024 2:1 (Merit) Coursework: Software Design, Advanced Databases, Systems Architectures, Web App Architectures, Secure Systems Development, Deep Learning

MSc Management (International Business) — University of Sheffield
CMI Level 7 Award in Strategic Management and Leadership Apr 2021 Coursework: Marketing, Accounting, Financial Management, Agile Project Management

BA English and American Studies — University of Pannonia (Erasmus+)
Erasmus+ Scholarship Recipient Jun 2018 GPA: 4.11/5

Projects

Smart Parking Space Detection (Magpie) — Sep – Dec 2024
Contributor – Next.js, Node.js, PostgreSQL, CNN, Kubernetes, CI/CD Trained CNN models on satellite images

for automated parking space detection, achieving 95% accuracy. Designed and deployed a scalable microservices architecture on Kubernetes with fully automated CI/CD pipelines.

AI-Powered Q&A Platform Mar – Sep 2024
Lead Developer – H5, UniApp, GitBook Led H5 responsive development and cross-platform mobile app design for an AI-driven knowledge base. Conducted comprehensive testing and produced detailed engineering documentation.

Travel Planner (MERN Full Stack) Sep – Dec 2023
Full-Stack Developer – React, MaterialUI, Redux, Node.js, Express, MongoDB Built a full-stack MERN travel planning application with user authentication (JWT + Google OAuth), pagination, search, and real-time commenting system.

Certifications

ISO 27001 Internal Auditor (BSI) | CMI Level 7 Strategic Management | Trained CISA | PRINCE2
