Summary

DevOps and IT consulting professional with 2+ years of experience designing CI/CD pipelines, automating enterprise workflows, and securing cloud/hybrid infrastructure. Built automated deployment pipelines reducing release cycles from 2 days to 15 minutes. Delivered ISO 27001 compliance for enterprise clients (200+ documents) and orchestrated phishing security programmes reaching 5,000+ users. Agile practitioner across retail, maritime, and F&B sectors.

Skills

DevOps & CI/CD: GitHub Actions ▪ Kubernetes ▪ Docker ▪ Azure ▪ Linux
IaC & Automation: Terraform ▪ Ansible ▪ n8n ▪ Bash ▪ Python
Cloud Security: ISO 27001 ▪ KnowBe4 ▪ cloud hardening ▪ zero-trust
Languages: Chinese ▪ English ▪ Hungarian

Professional Experience

IT Security Consultant — InsightSec, Shanghai — Mar 2021 – Dec 2022
Security Compliance • CI/CD Consulting • Workflow Automation

- Led ISO 27001 gap analysis for Xihua Foods (200+ documents); designed controls and remediation roadmaps for retail and maritime clients
- Delivered KnowBe4 phishing campaigns for YumChina (5,000+ users) and security awareness training for Decathlon cloud environments (200+ staff)
- Designed and implemented n8n workflow automation for SME clients (Decathlon, COSCO, Xihua) — saved 3+ hours daily on repetitive operational tasks
- Coordinated Agile delivery across engineering and QA; ran sprint planning, stand-ups, and fortnightly reviews for 15+ concurrent SME engagements

DevOps Engineer (Intern) — Stealth AI Startup — Mar 2024 – Oct 2024
CI/CD Pipeline • Docker • GitHub Actions • IaC

- Built fully automated testing and deployment pipelines; improved release cycle from 2 days to 15 minutes via GitHub Actions
- Containerized applications with Docker and wrote Bash automation scripts for production deployment procedures
- Documented infrastructure runbooks and deployment procedures in GitBook; collaborated with engineering teams on CI/CD improvements

Technical Projects

Smart Parking CI/CD – MSc Dissertation — TU Dublin (Sep – Dec 2024)
Kubernetes • Docker • GitHub Actions • Go • PostgreSQL

- Deployed containerised microservices on Kubernetes with fully automated GitHub Actions CI/CD pipeline — reduced release cycle from 2 days to 15 minutes
- Built backend services in Go and Node.js; designed PostgreSQL schema for real-time parking data; co-authored EDULEARN25 paper

COSCO Maritime HPC Security Audit — InsightSec Client Engagement (2022)
cloud security • ISO 27001 • Ansible • Linux • Terraform

- Conducted security audit for COSCO Shipping's HPC infrastructure (15+ SME maritime sites); identified cloud misconfigurations and authored remediation playbooks
- Implemented Infrastructure-as-Code with Terraform and Ansible for automated compliance hardening across HPC cluster nodes

Education

MSc Computer Science — Technological University Dublin — Sep 2023 – Dec 2024
Systems Architecture, Web App Architectures, Agile Methods, Deep Learning

MSc Management (International Business) — University of Sheffield — Jun 2019 – Mar 2021
Agile Project Management, Accounting & Financial Management

Certifications & Publications

ISO 27001 Foundation – BSI (2021) ▪ CMI Level 7 Strategic Management & Leadership (2021) ▪ Google Analytics Advanced Certification ▪ *The Development of a GIS for Public Amenities in Urban Areas* – EDULEARN25 Conference (Jul 2025)
