Summary

Frontend-focused software engineer with **3 years of experience** building responsive, cross-platform web and mobile applications. Skilled in React, TypeScript, Next.js, MaterialUI, and H5 cross-platform development using UniApp. Proven ability to deliver polished, accessible user interfaces in MERN and React Native stacks, with complementary full-stack skills in Node.js, Express, MongoDB, and PostgreSQL. Agile practitioner with cross-functional collaboration experience across international enterprise projects.

Skills

Frontend: React.js, TypeScript, Next.js, MaterialUI, Redux Toolkit
Secondary: Vue.js, HTML5, CSS3, Tailwind CSS, Shadcn, Styled Components, Responsive Design
App Dev: React Native, UniApp (H5 Cross-Platform)
Backend: Node.js, Express.js, MongoDB, PostgreSQL, FastAPI, GraphQL, JWT, Google OAuth
Tools: Git, GitHub Actions CI/CD, Linux, Figma, GitBook, Jira, Agile/Scrum
Languages: Chinese (native), English (professional), Hungarian (conversational)

Professional Experience

Software Engineer (Intern) – Stealth Startup (AI) Mar 2024 – Oct 2024
H5 Cross-Platform Development | React | UI/UX Implementation

- Designed and implemented responsive H5 interfaces using **UniApp** (React-based) for an AI-powered Q&A mobile application
- Built CI/CD workflows with **GitHub Actions** for automated testing and deployment pipelines
- Led end-to-end software testing and bug fixing; authored engineering documentation in **GitBook**
- Collaborated with backend team to integrate RESTful APIs; optimised UI rendering performance on low-end devices

Information Technology Consultant – InsightSec, Shanghai Mar 2021 – Dec 2022
IT Consulting | Web Development | Project Coordination

- Managed IT consulting projects for international enterprise clients across retail and pharmaceutical sectors; authored functional specifications and user stories
- Coordinated developers, designers, and QA teams; applied **Agile/Scrum** across all engagements, running sprint planning and daily stand-ups
- Built and maintained web-based documentation portals for client projects using HTML/CSS and CMS tools; handled multiple simultaneous project deliverables
- Demonstrated strong analytical and problem-solving skills under pressure while managing competing priorities across international stakeholders

Technical Projects

Travel Planner – Full Stack MERN Application MSc CS, Sep 2023 – Dec 2023
React • MaterialUI • Redux • Node.js • Express • MongoDB • JWT • Google OAuth

- Built complete travel planning web application with **React/MaterialUI**: destination search, itineraries, trip management
- Implemented **Redux** state management and **RESTful API** with **Node.js/Express**; designed MongoDB database schema
- Added **JWT** and **Google OAuth** authentication; implemented pagination, search, and a commenting system
- Designed responsive layouts with CSS Grid and Flexbox; ensured cross-browser compatibility
- **Source:** github.com/Stevendu666/Web-App-Travel

Education

MSc Computer Science – Technological University Dublin Sep 2023 – Dec 2024
Systems Architecture, Web App Architectures, Agile Methods, Deep Learning, Programming Paradigms (Graduated Dec 2024)

MSc Management (International Business) – University of Sheffield Jun 2019 – Mar 2021
Agile Project Management, Accounting & Financial Management, Marketing

BA English & American Studies – University of Pannonia (Hungary) Sep 2015 – Jun 2019
Business Communication, Event Management

Certifications

ISO 27001 Foundation – BSI (2021) ▪ CMI Level 7 Strategic Management & Leadership (2021)
