Summary

Full-stack Software Engineer with a security-first mindset. Trained CNN models achieving 95% accuracy for satellite-based parking detection. Built and deployed scalable microservices on Kubernetes with fully automated CI/CD, cutting release cycles from 2 days to 15 minutes. Former penetration tester who brings secure-by-design thinking to every engineering team.

Skills

Languages: Python, JavaScript, TypeScript, SQL, HTML/CSS
Frameworks: React, Node.js, Express, Redux, FastAPI, Django
Cloud/DevOps: Azure, Kubernetes, Docker, Terraform, CI/CD, Unix/Linux
Databases: PostgreSQL, Redis, MongoDB
Security: ISO 27001 Audit, Penetration Testing, Cybersecurity

Experience

Information Cybersecurity Specialist — InsightSec, Shanghai
Penetration Testing & Compliance — Apr 2021 – Dec 2022

- Led penetration testing engagements; remediated 20+ critical vulnerabilities, reducing client risk exposure by 70%
- Coordinated cross-functional Agile teams across 5+ ISO 27001 certification projects in finance, healthcare, and technology sectors
- Delivered all projects on time and within budget while managing stakeholder communications and compliance documentation

Web Engineer — Sheffield African Caribbean Community Association
Full-Stack Web Development — Sep 2019 – Apr 2020

- Built association website from scratch (WordPress + Figma), increasing organic search visibility by 40% within 6 months
- Developed responsive mobile-first front-end; reduced maintenance overhead by 30% and lifted avg. session duration from 1.2 min to 2.8 min

Education

MSc Computer Science — Technological University Dublin — Dec 2024
Software Design, Advanced Databases, Systems Architectures, Web App Architectures, Secure Systems Development, Deep Learning

- *2:1 (Merit)*

MSc Management (International Business) — University of Sheffield — Apr 2021
CMI Level 7 Award in Strategic Management and Leadership

BA English and American Studies — University of Pannonia (Erasmus+) — Jun 2018
GPA: 4.11/5

Projects

Smart Parking Space Detection (Magpie) — Sep – Dec 2024 — *Next.js, Node.js, PostgreSQL, CNN, Kubernetes, CI/CD*

- Trained CNN on 10,000+ satellite images — 95% accuracy, reducing manual survey labor by 60%
- Deployed scalable microservices on Kubernetes with automated CI/CD (GitHub Actions), cutting release cycle from 2 days to 15 minutes

AI-Powered Q&A Platform — Mar – Sep 2024 — *H5, UniApp, RAG, PostgreSQL, GitBook*

- Architected RAG-powered H5 knowledge base app, reducing user search time by 45% vs. keyword-only search
- Led 3 cross-functional teammates through full SDLC; delivered 2 major releases with 92% bug-free production rate

Travel Planner (MERN Full Stack) — Sep – Dec 2023 — *React, MaterialUI, Redux, Node.js, Express, MongoDB*

- Built production MERN app with JWT + Google OAuth, serving 500+ users with 4.6/5 average session rating
- Implemented WebSocket real-time commenting; optimized MongoDB indexing, cutting page load from 3.2s to 0.8s

Certifications

ISO 27001 Internal Auditor (BSI) ▪ CMI Level 7 Strategic Management ▪ Trained CISA ▪ PRINCE2 Practitioner
