Summary

DevOps and automation specialist with 2+ years of IT consulting experience delivering cloud infrastructure, CI/CD pipelines, and workflow automation for enterprise clients. Built Kubernetes-based microservices with automated CI/CD at scale; automated enterprise workflows with n8n saving 3+ hours daily; executed ISO 27001 compliance programs and KnowBe4 phishing campaigns for Fortune-level clients. Hands-on practitioner of AI-assisted DevOps tools for infrastructure-as-code and incident response.

Skills

DevOps & CI/CD: GitHub Actions ▪ Kubernetes ▪ Docker ▪ Azure ▪ Terraform
Automation & AI: Python ▪ Go ▪ n8n ▪ OpenClaw ▪ Bash ▪ Ansible
Security: KnowBe4 ▪ ISO 27001 ▪ Cloud Security Posture ▪ Phishing Simulation
Languages: Chinese ▪ English ▪ Hungarian

Professional Experience

Information Technology Consultant — InsightSec, Shanghai — Mar 2021 – Dec 2022
DevOps Automation | Cloud Security | Compliance

- Designed n8n workflow automation pipelines for SME clients (Decathlon, Xihua Foods, COSCO) — saved 3+ hours daily on repetitive operational tasks; automated 15+ enterprise workflows across retail, F&B, and logistics sectors
- Delivered cloud security training programmes (KnowBe4) for 200+ users at Decathlon; coordinated ISO 27001 gap analysis for Xihua Foods (200+ documents)
- Led phishing simulation campaigns for YumChina (5,000+ users across 15+ subsidiaries); improved organisational security awareness by 40% within 6 months
- Provisioned and managed Linux infrastructure for client environments; automated patch management and baseline hardening scripts in Bash

Software Engineer (Intern) — Stealth AI Startup — Mar 2024 – Oct 2024
DevOps | CI/CD | Infrastructure Automation

- Built fully automated CI/CD pipelines with GitHub Actions; reduced release cycle from 2 days to 15 minutes
- Containerised applications with Docker and documented deployment procedures for production Kubernetes clusters
- Created infrastructure automation scripts (Bash, Python) for reproducible build and deployment environments

Technical Projects

Smart Parking Space Detection – MSc Dissertation — TU Dublin (Sep – Dec 2024)
Kubernetes • Docker • GitHub Actions • Go • PostgreSQL

- Deployed production-grade microservices via Kubernetes and Docker with fully automated CI/CD pipeline — reduced release cycle from 2 days to 15 minutes
- Implemented GitHub Actions workflows with automated testing, container image builds, and Kubernetes deployment stages
- Designed PostgreSQL schema for real-time parking data ingestion; authored EDULEARN25 conference paper

Decathlon Cloud Security Programme — InsightSec (2021 – 2022)
KnowBe4 • Cloud Security Posture • Security Awareness • Linux

- Designed and delivered cloud security awareness training programme for 200+ staff using KnowBe4 platform
- Performed cloud infrastructure security review; identified and remediated misconfigurations across Azure environments
- Created automated compliance reporting scripts (Python) to track security posture metrics over time

Education

MSc Computer Science — Technological University Dublin — Sep 2023 – Dec 2024
Systems Architecture, DevOps, Agile Methods, Deep Learning

MSc Management (International Business) — University of Sheffield — Jun 2019 – Mar 2021
Agile Project Management, Accounting & Financial Management

Certifications

ISO 27001 Foundation – BSI (2021) ▪ CMI Level 7 Strategic Management & Leadership (2021) ▪ Google Analytics Advanced Certification
