Summary

DevOps practitioner and IT generalist with 2+ years designing CI/CD pipelines, automating enterprise workflows, and securing cloud infrastructure for retail, F&B, and logistics sectors. Built production-grade deployments on Kubernetes/Docker with fully automated GitHub Actions pipelines; reduced release cycles from days to minutes. Comfortable across the full stack – Python, Go, Bash – and the full lifecycle from requirements to production.

Skills

DevOps: GitHub Actions ■ Kubernetes ■ Docker ■ Azure ■ Linux ■ Terraform

Languages: Python ■ Go ■ JavaScript ■ SQL

Automation: n8n ■ Bash ■ Ansible ■ CI/CD pipelines

Security: ISO 27001 ■ KnowBe4 ■ cloud hardening

Professional Experience

Information Technology Consultant

INSIGHTSEC, SHANGHAI

MAR 2021 – DEC 2022

DevOps Consulting / Workflow Automation / Compliance

- Designed and implemented n8n workflow automation for SME clients (Decathlon, Xihua Foods, COSCO) – saved 3+ hours daily on repetitive operational tasks
- Led ISO 27001 gap analysis and compliance programs for Xihua Foods (200+ documents) and coordinated KnowBe4 phishing simulation programs for enterprise clients
- Deployed containerised automation workflows with Docker; automated testing pipelines via GitHub Actions for internal tooling
- Applied Agile/Scrum across all engagements; managed backlogs in Jira, coordinated developers and QA, delivered fortnightly sprint reviews

Software Engineer (Intern)

STEALTH AI STARTUP

MAR 2024 – OCT 2024

DevOps Automation / CI/CD / Technical Documentation

- Built automated testing and deployment workflows; improved release cycle from 2 days to 15 minutes via GitHub Actions
- Containerized applications with Docker; documented deployment procedures for production environments
- Created engineering documentation and automation scripts in GitBook and Bash for cross-team collaboration

Technical Projects

Smart Parking Space Detection – MSc Dissertation

TU DUBLIN (SEP – DEC 2024)

Kubernetes • Docker • GitHub Actions • Go • PostgreSQL • ResNet50

- Deployed via Kubernetes/Docker microservices with fully automated CI/CD pipeline – reduced release cycle from 2 days to 15 minutes
- Built backend services in Go and Node.js; designed PostgreSQL schema for real-time parking data; co-authored EDULEARN25 paper

AI Q&A Platform – RAG + Claude API

PERSONAL PROJECT (MAR – SEP 2024)

Python • FastAPI • Docker • GitHub Actions • PostgreSQL

- Built RAG platform for querying custom document corpora via natural language; designed PostgreSQL ingestion pipeline with chunking and vector search
- Containerised full-stack app with Docker; automated testing and release pipeline via GitHub Actions

Education

MSc Computer Science

TECHNOLOGICAL UNIVERSITY DUBLIN

SEP 2023 – DEC 2024

Systems Architecture, Web App Architectures, Agile Methods, Deep Learning

MSc Management (International Business)

UNIVERSITY OF SHEFFIELD

JUN 2019 – MAR 2021

Agile Project Management, Accounting & Financial Management

Certifications & Publications

ISO 27001 Foundation – BSI (2021) ■ CMI Level 7 Strategic Management & Leadership (2021) ■ Google Analytics Advanced Certification ■ *The Development of a GIS for Public Amenities in Urban Areas* – EDULEARN25 Conference (Jul 2025)
