Summary

Software Engineer with hands-on expertise across AI/ML, cloud architecture, and cybersecurity. Trained CNN models achieving 95% accuracy for parking space detection. Remediated 20+ critical vulnerabilities in enterprise penetration testing. ISO 27001 compliance auditor with proven cross-cultural collaboration skills.

Skills

Languages Python JavaScript TypeScript SQL HTML/CSS

Frameworks React Node.js Express Redux FastAPI Django

Cloud/DevOps Azure Kubernetes Docker Terraform CI/CD Unix/Linux

Databases PostgreSQL Redis MongoDB

Security ISO 27001 Compliance Penetration Testing Cybersecurity

Experience

Information Cybersecurity Specialist — InsightSec, Shanghai
Apr 2021 – Dec 2022

- Led penetration testing projects, identifying and remediating 20+ critical vulnerabilities across enterprise systems
- Managed Agile/Scrum projects, ensuring on-time delivery within budget constraints
- Guided clients through ISO 27001 ISMS certification, achieving compliance for 5+ organizations

Web Engineer — Sheffield African Caribbean Community Association
Sep 2019 – Apr 2020

- Developed and maintained association website from scratch, implementing SEO optimization that improved search visibility by 40%
- Built responsive front-end features using WordPress and Figma, reducing maintenance overhead by 30%

Education

MSc Computer Science — Technological University Dublin
Dec 2024 — 2:1 (Merit) Advanced Software Development
Coursework: Software Design, Advanced Databases, Systems Architectures, Web App Architectures, Secure Systems Development, Deep Learning

MSc Management (International Business) — University of Sheffield
Apr 2021 CMI Level 7 Award in Strategic Management and Leadership
Coursework: Marketing, Accounting, Financial Management, Agile Project Management

BA English and American Studies — University of Pannonia (Erasmus+)
Jun 2018 — GPA: 4.11/5 Erasmus+ Scholarship Recipient

Projects

Smart Parking Space Detection (Magpie) — Sep – Dec 2024
Next.js Node.js PostgreSQL CNN Kubernetes CI/CD Trained CNN models on satellite images for automated parking space detection, achieving 95% accuracy. Deployed scalable microservices architecture with Kubernetes.

AI-Powered Q&A Platform — Mar – Sep 2024
H5 UniApp GitBook Led H5 responsive development and cross-platform mobile app design. Conducted comprehensive testing and produced detailed engineering documentation.

Travel Planner (MERN Full Stack) — Sep – Dec 2023
React MaterialUI Redux Node.js Express MongoDB Implemented user authentication (JWT + Google OAuth), pagination, search, and commenting system.

Certifications

ISO 27001 Internal Auditor (BSI) ▪ CMI Level 7 Strategic Management ▪ Trained CISA ▪ PRINCE2
